

Cadet and Junior Fencing World Championships

Reference for Mr Johnny Davis and Pioneer Promotions

Mr Johnny Davis is a former Olympian in Fencing and was fundamental to the success of the Cadet and Junior Fencing World Championships recently held at the University of Ulster in Northern Ireland. This event was the largest World Championships to date with over 1100 competitors from approximately 90 countries.

Johnny Davis was extremely capable in organising all aspects of the event including the opening and closing ceremonies, facilitating the needs of the international governing body, the requests from the international teams. He was also involved with liaising with local schools and he was also responsible for many of the volunteers.

I was impressed throughout by his attention to detail, punctuality and professionalism. He is a real enthusiast but also highly organised, attentive to detail and delivers punctually. He also kept tightly to budget and involved all the relevant parties in discussions and decisions that needed to be taken collectively.

I thoroughly recommend Johnny Davis.
