To Whom It May Concern

During the recent World Junior and Cadet Fencing Championships held at our facility in Jordanstown, Johnny Davis and his company Pioneer Promotions were instrumental in delivering a World Class Event. Johnny and his team provided an essential line of communication and coordination across the various elements of the event infrastructure.

Johnny's experience as an ex Olympic Fencer brought an extra level of expertise and knowledge to his event management skills and this was acknowledged by both the FIE and the fencers. Post event Johnny has put in place a legacy plan for fencing in Northern Ireland and we are already seeing the results from this plan.

Yours faithfully
